How PTC sites work?

PTC means Paid-to-Click. You get paid for clicking on advertisements.

This is the simplest online work. After joining to a PTC-site (It takes only a few minutes.), you simply click to some advertisements. You get money for this. It sounds too great to be true? Unfortunately, you get very little money for a click. On a typical PTC-site, you will earn **\$0.0005 - \$0.02** for every click. You can click 5-20 advertisements a day with **free** account. You can earn a few cents a day with a site (typically between **\$0.01** and **\$0.10**). If you upgrade your account (for a monthly or yearly fee), you can earn more. You can join several PTC-sites, so you can earn the few daily cents at all of them. It's not much money, but it's very easy and fast.

But you can make real money with these sites!

You can bring referrals to the PTC site. You can earn money also when your referrals click on advertisements. At most sites, if you're an upgraded member, you earn the same money, when one of your referrals clicks to an advertisement.

An example: Say, you've brought 20 referrals to a PTC-site. Your earnings for your clicks is \$0.05. But your earnings for your referrals' clicks is **\$1.00**. Much better, isn't it? With 100 referrals, it's **\$5.00** a day (**\$35.00** per week, **\$150.00** per month). (Of course, this is an ideal example, not every referral will be active every day.) You can build up a nice income with several PTC-sites. Usually, they have pretty little minimal payout, so you can cash out soon.

Most PTC sites offer upgraded membership for a monthly or yearly fee. With upgraded membership, you can earn more from that PTC site. At most sites, you have to bring some referrals to make profit from upgraded membership. When you have enough referrals, it's a mistake if you don't upgrade: you leave money on the table.

There are **rented referrals** in most PTC sites. You rent them for a period of time for money. You earn profit from their clicks. Some PTC sites offer purchasing of **direct referrals**. They will be yours forever. Of course, you don't know when they will give up clicking.

Most of these Paid-to-click sites pays to your **AlertPay**, and/or **PayPal** account. If you don't have them already, sign up for them!

CREAT UR WEBSITE FREE

Weebly isn't the answer if you want a professional site that is valid and accessible. However, if you want something quick and free and don't really care what's going on in the code behind the scenes, you can make a website using weebly.

Open an account with weebly.com (see link below). You can immediately click Create a Site and get started.

The editing tools are simple drag and drop. Pick one of the Designs. Then choose from Elements to find things to add to your pages. Create new pages under the Pages menu. And fill in the information about your site in Settings.

When you've added all the text, pages, photos, or other elements you want, click Publish. The first time you publish, you must decide whether to publish on the weebly site (if you added a blog, you must choose this one for the blog to work) using a URL like samemoney.weebly.com test site

Weebly will also let you buy a domain name or publish a site to a domain you already own. These two options involve purchasing and setting up a domain with a domain registrar, then making sure that weebly has the information about where to publish your web pages.

Once your site has been published the first time, you can sign in to weebly and edit it at any time. All the sites you have at weebly will show up on the weebly homepage when you log in. Simply click Edit Site and you're ready to go.....
